CAUSE & EFFECTS OF CORRUPTIONS

POLITICAL

- Undermine democratic institution and the rule of law.
- Offices and institutions lose their legitimacy when they're misused for private advantage.

An **example of corruption** is a government that pretends to be for the protection of people, but is selecting vendors based on how their contracts will benefit them personally.

SOCIAL

- Citizens compelled to pay for service that should be FREE.
- Affects lives. Substandard quality of goods and service- example, building collapse (killing innocent people, due to contract being awarded to inefficient companies who paid bribes to win the contract.
- Undermine people's TRUST in the political system, institutions and LEADERSHIP.

ENVIRONMENTAL

- Our natural resources (Balak,etc) are carelessly exploited and ecological systems are ravaged due to non-enforcement of environmental law.

An **example of corruption** is environmental is through issuing of illegal permits and licences for natural resource exploitation.

ECONOMICAL

- ROBBING national wealth.
- Public resources are diverted in projects that will line the pockets rather than benefit communities such as schools, hospitals and roads.

World Bank estimated the total amount of bribes paid in developing and developed countries in 2001/2002 **at 1 trillion dollars, about 3% of world GDP>**

Our primary objective, therefore, is to encourage and enable active public participation in combatting corruption by reporting experiences of corruption in Malaysia.

Purpose

- We believe that by shining a light on corruption and those who act corruptly, we promote transparency and accountability and protect the beneficiaries of public goods and services.
- Each act of corruption that is prevented by our citizens underpins and fortifies civil society and thereby enhances democracy, the rule of law and the establishment of a more caring and just society.

Strategic Objectives

- **MCW** provides a platform for reporting corruption
- **MCW** build campaigns that mobilise people to take a stand against corruption
- **MCW** gather and analyse information to identify patterns and hot spots of corruption.
- **MCW** stand to be LEADER to all NGOs in fighting corruption

Values

- **Ethical:** Through transparency, fairness, & honesty
- **Excellence:** In everything we do
- **Respectful:** Of everyone we work with
- **Accountable:** To committee and other stakeholders
- **Leadership:** The courage to shape the future

MCW provides a platform for reporting corruption

Anyone can safely share what they experience and observe and can speak out against corruption. Our communication channels include our **website**, an **Whatsapp line**, **social media**, **email or post.**

MCW build campaigns that mobilise people to take a stand against corruption

Our campaigns **involve the public, community groups and other organisations such as trade unions and NGOs to support MACC initiatives (GERAH)**.

MCW gather and analyse information to identify patterns and hot spots of corruption.

We prepare research reports on these hot spots **to expose and find solutions to systemic corruption.** Using our own communication platforms and the media, we share our findings with the public, like-minded non-governmental organisations (NGOs) and public & private sector bodies, all of which are undermined by corruption.

MCW stand to be LEADER to all NGOs in fighting corruption

Our **ACTION must speak louder then WORDS**. MCW must show leadership by being independent but working closely with MACC to curb corruption and bribery in Malaysia.
